

07/06/2020

Words are simply inadequate to express how grateful we are for all MAAD Hospitality's work in helping make SLS' project a success. Luckily, David answered our call and showed up immediately ready to meet our every need. It was during this first meeting we knew MAAD Hospitality was the right company for the project. David came prepared with menu options, an action plan and a timeline for startup. Fortunately, this COVID-19 project never saw a patient, however, MAAD was ready at a moment notice if a patient did arrive. The best gauge for determining how delicious the food was none of the staff ever ordered out food. Some of the staff would talk all day, wondering "what's for lunch or what's for dinner?". Since the food was good it helped keep a large group of workers on-site working and not wandering off. SLS plans to use MAAD for all our future events that require food catering.
